# WINE LIST

If you're joining us for the first time you are about to discover that the wines we've chosen for this list are nearly all from Spain. To some of you this will be unfamiliar terrain in the world of wine, others may be a little familiar with a few of the wines and some of you may very well know everything there is to know about the wines from the Latin World.

We deliberately chose the wines for this list, not because we're wine snobs, nor because we're Spanish (we're not), we did it because Peasant is first and foremost an ode to the wine bars of Barcelona, Seville and Madrid.

We want you to feel free to explore these wines without feeling intimidated and we really encourage you to ask our well informed staff as many questions as you need in order for you to have the best possible experience.

So sit back nibble some of our fine Tapas and enjoy the wines to their fullest and again, please, if you have any questions... just ask!
